Fav-Links Crack+ Serial Key

At the present time, Fav-Links isn't available for download from the developers' website, but you can always find its cracked version in web hosting and file-sharing services. You can even perform an internet search for the exact address of the package's direct link. If you ever need to, you can find the latest version update below. Fav-Links final score: User Rating: 2.4/5 (6 votes cast) Posted on 2019-01-04 19:09:49 Fav-Links 1.7.2 Crack Fav-Links is a lightweight software whose purpose is to help users store their favorite bookmarks in a clean and intuitive environment. A new link can be added to the list by dragging and dropping the URL onto the small floating window. Plus, you are allowed to provide a name, specify the expiration date, synchronize the current link, pick the web browser, and attach the link to a category. What's more, you can edit or delete the selected URL, create a list with favorite links, open websites in overlapped windows, and perform search operations based on keywords for quickly finding an item in the list. The program lets you take screenshots in a full screen mode and add them to the "Slide" section, as well as view all bookmarks or slides displayed in the main window. When it comes to configuration settings, you can make the utility run at Windows startup, use hotkeys for a better control over the entire process, which can be reassigned, and pick the link order (from new to old or vice versa, top visited, or custom order). Additionally, you can switch to a full screen mode, view or remove archived links, and check the most used links and categories, and recent visits in a timeline panel. During our testing we have noticed that Fav-Links carries out a task very quickly and without errors throughout the entire process. It is quite friendly with system resources, so the overall performance of the computer is not affected. All in all, Fav-Links proves to be a reliable utility that offers a decent pack of features for helping you manage bookmarks, and is suitable for all types of users, regardless of their experience level.
