January 23, 2020 - Hi Bexy43, Once you've finished downloading, you need to mount ISO file using (for example) daemon tools. This program `./tools/install_setup_iso.sh`, you must copy it to the installation directory and run it with the necessary parameters as an administrator. After that, you may want to install the driver for your graphics adapter (you can usually find it on the manufacturer's download page). Once the driver is installed, you can start the installation. To install the latest version, click the plus button to add
