**Revo Uninstaller Pro Serial Number Download //TOP\\s**

---

When you buy a license, we send you a serial number with a certain update... and uppercase characters, as well as numbers, and this is case sensitive. So on startup it reads the serial number and updates it and then passes it to the server. The server updates the symbols according to your update. I don't think there is any difference in writing both lowercase and uppercase characters for the server. Anyway, this is my first post here, so please bear with me... I know this is a pretty simple question and I really want to know the answer, but I guess I was too naive
