iphonesimulator/UARTB_TOTAL.build/Objects-normal/x86_64/UARTB_TOTAL.o This is my first time

dealing with this error so I'm not sure where to start looking. The project was working perfectly

yesterday, I didn't do anything to mess it up. I'm trying to re-do it from scratch. I've looked through

similar questions and tried the solutions offered by the answers to those questions, but it hasn't fixed

my problem. Any help would be greatly appreciated. A: I guess you have already run the project

after this solution. So I would suggest you to clean the project and rebuild it. As below steps. Delete

DerivedData folder. Delete Library.m files if exist Delete Library.a files if exist Delete Build.app
